

# *Dummy Stamps*

*A Newsletter Covering British Stamp Printers' Dummy Stamp Material*

**CUMULATIVE  
INDEX  
FOR ISSUES  
1 TO 25**

# Introductory Notes

*Dummy Stamps Newsletter* was first launched in the Summer of 2006 by the compiler of **stampprinters.info**

Each issue relates to items from the world of British dummy philatelic material from postage and stationery stamp printers, with an occasional excursion abroad when relevant to Britain somehow, such as the stamp output of Cartor (FR) and Enschede (NL), both Royal Mail preferred print suppliers.

*Dummy Stamps* comprises a minimum of four sides of A4 each quarter, but invariably has many more pages, often with a supplement or appendix.

All current and back copies of *Dummy Stamps* are available online at [www.stampprinters.info/dummystamps.info](http://www.stampprinters.info/dummystamps.info), can be viewed as PDF files, downloaded as a PDF file and printed on your colour / black and white printer, or can be saved as a file on your PC / Mac for screen viewing / printing at any time.

This Cumulative Index to issues 1 to 25 of *Dummy Stamps* is divided into three parts:

## **Part 1 – Content by Issue Number**

## **Part 2 – Full Alphabetical Index by Article Title**

## **Part 3 – Alphabetically Within Company or Subject**

There have been 354 pages of A4 text with around 1,000 images published as of June 2012, covering subjects rarely written about elsewhere, but that are often of such importance to the development of the production stages of actual issued stamps.

Glenn H Morgan, Compiler, June 2012
